The consortium includes the following members:

- The local authority having previously experimented the service and which coordinates the project: the Burgundy Region
- The local authorities where the service is to be market validated: the Uddevalla Municipality, the Piedmont Region, the Brittany Region, the Guadeloupe Region and the Central Bohemia Region
- The IT company which implemented the service in Burgundy Region and which will manage the technical part of all pilots implementation and the deployments in Brittany and Guadeloupe: Atexo
- The consulting company which will be in charge of the studies and of the deployments in Piedmont and Central Bohemia: Sopra Group
- The IT company which will be in charge of the deployment in Uddevalla Municipality: Marakanda
- The entity which will be in charge of all the legal studies: the University of Bremen
- The consular which will be in charge of coordinating the local SMEs' networks: CCIP

The above consortium composition therefore gathers:

- Key players involved in the purchasing process: SMEs and local authorities
- Legal expertise
- Technical expertise on the solution
- IT and consultancy services to accompany the deployments
